STATUS: Approved	
Approved By: Mary L. Livers, Deputy Secretary	Date of Approval: 04/05/2012

I. AUTHORITY:

Deputy Secretary of Youth Services as contained in La. R.S.36:405. Deviation from this policy must be approved by the Deputy Secretary.

II. PURPOSE:

To establish the procedures to be followed in the administration of drug/alcohol testing of youth housed in a Youth Services (YS) secure care facility.

III. APPLICABILITY:

Deputy Secretary, Assistant Secretary, Undersecretary, Deputy Undersecretary, Chief of Operations, Deputy Assistant Secretaries, YS Health Services Administrator (HSA), Facility Directors, YS Director of Treatment and Rehabilitation, and the Contracted Health Care Provider (CHP) are responsible for ensuring that all necessary procedures are in place to comply with this policy.

IV. DEFINITIONS:

Contracted Health Care Provider (CHP) - contracted licensed practitioners responsible for the physical and mental well-being of the secure care youth population. Services include medical, dental, and mental health services, nursing, pharmacy, personal hygiene, dietary services, health education, and environmental conditions.

Drug Testing - Any chemical, biological, or physical analysis or test administered for the purpose of determining the presence or absence of a drug or its metabolites and/or alcohol.

Illegal Substances - Controlled dangerous substances as defined in La. R.S. Title 40, alcohol, or any substance declared contraband or prohibited by policy and/or practice.

Drug Test - An analytical procedure to detect the presence of drugs or metabolites using approved drug-testing instruments.

Operations Shift Supervisor (OSS) - are responsible for a range of duties that support management in maintaining a safe, secure facility. Shift Supervisors oversee administrative and operational security activities during specific shifts; manage staff during each assigned shift; ensure adequate security coverage; lead count procedures; oversee the custody, supervision and control of secure care youth; manage frontline security staff; assist in controlling youth movement; assist in directing the use and issuance of keys, locks, and security equipment.

Positive Results - Results at or above the cutoffs established by the Mandatory Guidelines for Federal Workplace Drug Testing Programs, Federal Register notice published April 13, 2004 (69 FR 19644) effective November 1 2004, and as amended.

Probable Cause - Probable cause is articulable knowledge supported by reasonable suspicion that a youth is under the influence of an illegal substance and/or that the youth is hiding contraband or drugs. Probable cause exists when facts and circumstances within the employee's knowledge and about which he has reasonable, trustworthy information are sufficient to support a reasonable belief that a youth is under the influence of an illegal substance and/or that the youth is hiding contraband or drugs.

Random - A drug test performed monthly on a minimum of 15% of the youth population at the facility.

Reasonable Suspicion - Suspicion supported by information (facts, tips and circumstances) which leads an employee of ordinary caution to believe that a youth is under the influence of an illegal substance and/or that the youth is hiding contraband or drugs. In determining reasonable suspicion an employee must consider the nature and reliability of the information in addition to facts contributing to or mitigating against it. If reasonable suspicion is based on information provided by another person the employee must also consider the degree of corroboration of the information.

Routine - Normal activity that is within the scope of established day to day procedures.

Testing Instruments - Approved testing device, such as a urine "tox-cup" or a disposable breath alcohol detector.

Training Records Entry Completed (TREC)- The database used to track training hours of all YS employees.

V. POLICY:

The use of illegal substances and alcohol by youth presents a serious threat to youth health, public safety and the security of a facility. Drug/alcohol testing of youth is an effective means by which to detect the use of illegal drugs or alcohol. Youth Services (YS) is committed to providing an effective substance abuse testing program to protect the youth and staff, and providing graduated sanctions and appropriate treatment options. A positive test shall be responded to with appropriate sanctions and/or treatment/intervention.

VI. PROCEDURES

A. General

Specimens for drug and alcohol testing shall be collected by CHP staff who has received the appropriate training in drug testing, devices and procedures. It is the responsibility of YS to ensure that testing devices are approved by both the Deputy Secretary/designee and the CHP, and that an adequate supply is maintained for the CHP. The CHP shall provide proper storage and quality control for the devices, and train its staff in the use of the devices.

The CHP shall also provide training for male JJS staff in order that they may serve as witnesses to specimen collection when necessary, as described in D.2 below.

B. Testing

When YS staff identifies a youth or group of youths whom staff has reasonable suspicion should be drug/alcohol tested, a request for a drug/alcohol test form shall be completed [see Attachment C.2.7(a)]. The form shall then be immediately submitted to the Operations Shift Supervisor (OSS), who shall seek approval from the Facility Director/designee for the test to be administered. In the absence of the OSS, the requesting employee shall submit the form to the Facility Director for his approval.

The Director may give verbal approval for drug/alcohol testing, but he must sign the "Request for Drug/Alcohol Test" form upon submission from the OSS or an employee.

The "Request for Drug/Alcohol Test" form shall be maintained in the youth's Master Record as further described in this policy.

Drug testing is by urinalysis; alcohol testing is by breath analysis.

Upon approval, a youth shall be ordered to submit a specimen (urine/breath) as follows:

1. When staff has a reasonable suspicion that a youth is under the influence of drugs;
2. When there is some indication of alcohol use;
3. When a youth is found to be in possession of suspected illegal drugs or alcohol, or when suspected illegal drugs or alcohol are detected or found in the youth's area of immediate control (refer to YS Policy No. B.5.1);
4. When a youth is observed to be in possession of or using what appears to be illegal drugs or alcohol, but staff are unable to locate the substance in question;
5. As part of the random drug testing conducted on 15% of the general population of the facility;
6. When a youth returns from any unescorted off-campus activity, including furloughs and escapes, he shall be drug and alcohol tested;
7. Youth returning from an escorted off-campus activity may be required to submit to drug and/or alcohol testing;
8. When a youth or several youth assigned to a housing unit test positive, the remaining youth in the dorm shall be tested; unit staff shall also be tested at that time in accordance with YS Policy A.2.7.
9. Pursuant to an ongoing investigation involving the possession/use of alcohol or drugs, the Director of IS may recommend testing.

C. Refusal of the test

If a youth refuses to be tested or refuses to submit a specimen, he shall be informed that such refusal shall be deemed a positive reading, and result in a Code of Conduct Violation for Contraband being lodged against him.

D. Urine specimen collection

1. The youth shall be escorted to the facility's infirmary. The JJS escorting the youth must remain with him throughout the testing and fill out the pertinent sections of the Request for Drug/Alcohol Test form.
2. Specimen collection shall be witnessed by staff of the same gender as the youth to ensure that the youth submits a valid unadulterated urine sample. If no CHP staff of the same gender are on duty at the time of the specimen collection, a trained OJJ staff shall function as the witness to the collection and complete applicable information on the Request for Drug/Alcohol Test form.

3. If the youth does not provide a urine sample immediately, he shall be detained for up to three (3) hours until he is able to provide a sample. If he does not provide a sample within three (3) hours, this shall be considered a refusal to submit a sample. A refusal shall be deemed a positive reading, and the youth shall be charged with a Code of Conduct Violation for Contraband. The youth's refusal or inability to comply shall also be documented by staff on an Unusual Occurrence Report (UOR).
4. When the testing is complete, the escorting staff shall deliver the completed Request for Drug/Alcohol Test form to the Facility Director, who shall ensure a copy is provided to the youth's Case Manager.

E. Breath testing for alcohol

1. Alcohol testing shall follow the same steps noted in "D" above, with the exception of the following:
 - a. There is no requirement that the test be administered or witnessed by a person of the same gender as the youth; and
 - b. Considerations for refusal shall differ due to the method used to collect a breath sample. Breath alcohol detector devices usually require the donor continuously blow into the device for a specified number of seconds. Should the youth not follow the instructions provided and does not blow a sufficient sample, this shall be considered a refusal.

F. Positive Results

1. Drugs:

A positive result on the urine screen may require a repeat urine screen be conducted. When the repeat screen is complete, the escorting staff shall deliver the results to the Facility Director, who shall ensure a copy is provided to the youth's Case Manager. Positive results shall also be provided to the facility IS office.

2. Alcohol:

A positive result on the disposable breath alcohol detector device is self-evident and does not require a follow-up test. When the screening is complete, the escorting staff shall deliver the results to the Facility Director, who shall ensure a copy is provided to the youth's Case Manager. Positive results shall also be provided to the facility IS office.

G. Use of results

1. A positive drug or alcohol screen result may be used as evidence of the use of alcohol or the drug indicated by the result for purposes of a Youth Code of Conduct Violation.
2. Drug testing activities shall be reported and maintained monthly on the "Youth Drug/Alcohol Testing Report" [see Attachment C.2.7 (b)] by the CHP. The report shall reflect urine screens conducted (random and probable cause) with breakdown totals indicating the following:
 - a. number of tests conducted,
 - b. number of positives,
 - c. percentage of positives,
 - d. number of negatives, and
 - e. type of drug detected.
3. The youth's Case Manager shall report the results of positive drug/alcohol tests or a refusal to the committing court through the Quarterly Progress Report to the Court.
4. When a Case Manager receives a drug/alcohol test yielding a positive result or a refusal, the Case Manager shall immediately counsel the youth regarding his substance abuse. If the youth reveals information to the Case Manager regarding the source of the illegal substance, the Case Manager shall report that information to IS by immediately completing a UOR and/or contacting the Employee Hotline @ 1-800-626-1430.

H. Consequences:

1. When a youth is found guilty of a violation of "Contraband", he shall be disciplined in accordance with YS Policy No. B.5.1.
2. A youth who tests positive for or refuses to test for drug or alcohol use may be recommended for participation in an appropriate substance abuse program. Such youth shall also be tested monthly for a minimum of three (3) months following the positive test result or the refusal.
3. Restitution may be obtained from the youth after a finding of guilt by the Code of Conduct Committee.

VII. STAFF DEVELOPMENT:

- A. Documented training as recommended by the manufacturer of the testing devices to be used for CHP staff shall be available for review by YS.
- B. Documented training for male JJS staff who may serve as witnesses to specimen collection shall be provided by the CHP and documented in TREC by the facility's Staff Development Training Specialist staff.

VIII. QUALITY ASSURANCE:

- A. In accordance with YS Policy C.5.5, on a monthly basis the YS HSA shall provide Continuous Quality Improvement Services (CQIS) with the CHP's Monthly Statistical Report by the 10th working day of the month, for the prior month's activity.
- B. A semi-annual report shall be compiled and presented by CQIS staff to Executive Staff and Facility Directors.

IX. IMPLEMENTATION:

This policy shall become effective April 1, 2012.
